CALVIN ROBINSON

Every day I hear it over and over. "The weather is just right" and "how nice October turned out to be." The early flurry of snow and several frosty mornings had prepared us for an early cold season. I saw smoke curling upwards from chimneys where wood stoves had been installed. Over the week-end I marveled that smoke was going straight up. A sign of fair weather, they say. And fair weather we got. Last night I could see stars in the sky above unpolluted Martha Street. Some rainy days ahead are in the forecast but there is a cheering section saying "Hurrah for October."

And hurrah, too, for ACHS students who are setting a winning pace in a variety of activities. Many of us listened to the TV Klassroom Kwiz program, where ACHS had run up a string of victories. This week they go against George Wythe H. S. The Kwiz questions cover a wide variety of general information and some questions in specialized fields. And from drama to volleyball, our school does well. Incidently, wish someone would send me a copy of the Raider Report, school paper. College note: freshmen do not often get playing time in college varsity games. However, Joe Fraley, last year's Raider quarterback, now at VPI, has been getting some playing time with The Hokies, despite the fact that his uniform number is 13.

There were 1,833 entries in the Richmond Marathon race Sunday and 911 of them ran the full 26.2 miles. Number 295 to finish the course was Robert E. Pankey, of Appomattox.

From the note pad: saw several yellow Peace roses in bloom and my veteran Blaze climber keeps surprising me with one last bloomer....fifty years ago this week the nation was stunned by the famous "stock market crash." I remember it, but I did not have any stocks and it made very little impression on me.... "them ain't birds" flying across my yard as I write, but falling leaves. Gotta figure out some way to handle'em. Just Wondered Department, how many elevator operators in Appomattox? . . . one William Morgan, of Holyoke, Mass. is credited with inventing the game of volleyball, about 1888. .

Saturday was Peyton Seay's birthday . . . .

Last time I wrote anything about Indians in this area was in 1964 so let us mention the natives who lived here before Jamestown and 1607. Authorities at Colonial Williamsburg have said that the Indians were of a roving nature, mostly following rivers to seek good hunting areas, and although many evidences of their presence are still found, there were possibly never over 17,000 at one time in what is now Virginia. Relics have been found near Gladstone and most likely were left by the Nagyssan, who were of Siouan stock, related to the Tutelo, Saponi and doubtless the Monacan and Manahoac. The Appomattoc tribe, from which came the name Appomattox, was centered near City Point. Note that many Indian names ended in the letter "c". Most historians accept "Appomattoc" as the original spelling of Appomattox. The late Judge John Tisdale, of Clarksville, collected many Indain relics, from the Occaneechi, especially on Buggs Island,, I visited him once and marveled at his wonderful collection and his knowledge on the subject. Not many Indian relics are found now, but it is a fascinating subject.

Thanks for reasing and seey's next week.

Time Changes

This week end we can all get back that hour of sleep we lost with the beginning of Daylight Savings Time.

Daylight Savings Time ends at 2:00 a.m. Sunday morning, when we move your clocks back one hour [to 1:00 a.m.] or move them back prior to going to bed Saturday night. Enjoy that extra hour of sleep and look forward to it becoming dark an hour earlier each evening.

Mrs. Hudson Is Award Recipient

At the 1979 Division Annual Meeting of the Virginia Division of the American Cancer Society which convened October 19th, Mrs. Mary Alma Hudson, Treasurer of the Appomattox County Unit, American Cancer Society, was one of eighteen individuals presented a Division/Unit Volunteer Award for outstanding contributions. There are 115,000 volunteers in the State of Virginia and being recognized as one of eighteen outstanding volunteers is quite an achievement and one that Mrs. Hudson surely deserved.

Sixty-one units received Fair Share Goal certificates for reaching Crusade goals. Awards for the top three local units went to Greene County, Spotsylvania County and Appomattox County Units. For two consecutive years Appomattox had been first but were very proud to have been third in the state last year.

Walter Lawrence, Jr., M.D., immediate past President of the Virginia Division, American Cancer Society, cited commitment and dedicated involvement of loyal Virginia volunteers as "having made a difference in cancer control."

Speaking at the ACS's 42nd Annual Meeting in Fredericksburg October 18 and 19, Lawrence reported that the more than $940,000 of grants supporting cancer research investigators in Virginia the past year was due to volunteer success in Crusade efforts, which provide much needed funds for both basic and clinical cancer research.

"Great progress in cancer control today," he said, "has been made by cancer detection clinics, breast self-examination teach-ins, "helping smokers quit" sessions, and emphasis on cancer's 7 warning signals." He specified screening for colorectal cancer as the important new area of cancer detection.

"Early detection of this cancer clearly does increase cure rates, but optimal strategy for screening populations is still unclear. Our active public education programs related to early detection are much more likely to affect cancer control than the development of new treatment methods after the diagnosis has already been established," he said.

Lawrence commented that the Society is still all concerned with the care and rehabilitation of the patient who has been diagnosed with cancer.

"As well," he continued, "the Society must continue to update health care professionals regarding the latest and best possible methods for cancer detection, diagnosis, and patient management."

Outlinging the Division's objectives for the year, Dr.

Football Contest Winners Announced

Winners in the weekly football contest sponsored by area businesses have been announced for last week's contest by the **TIMES-VIRGINIAN.**

With a possible 23 games listed in the contest, we went as far as checking with Associated Press in Richmond for a score in the Friday night scheduled game between Pennsylvania and Lafayette but there was no record of the game. We did not count this game in the contest at all.

Out of a possible 22 games to correctly predict, John H. Wilson, Curtis T. Mayberry, Sr., Peggy Marshall, Tim Marshall, and Terri Bohannon, all of Appomattox, each predicted 20 of the games correctly. Peggy Marshall and Terri Bohannon did not predict the second tie-breaker correct so they lost out. John H. Wilson predicted Jefferson Forest to beat Appomattox by 9 points and is first place winner. Curtis T. Mayberry, Sr. predicted Jefferson Forest to win by 8 points so he is second place winner. Tim Marshall predicted a 6 point win for Jeffrson Forest. There was actually a 43 point win for Jefferson Forest over Appomattox. John H. Wilson will receive a check in the amount of $10.00 as first place prize from the **TIMES-VIRGINIAN** and Curtis T. Mayberry, Sr. will receive a check in the amount of $5.00 as second place prize.

Be sure you enter next week's contest and get your entry into this newspaper early...you just may be the next winner.

Visitation Day For Parents

Appomattox County Public School students will not attend school on Friday, November 2. This date is scheduled in the school calendar to give parents an opportunity to visit the schools and talk with teachers. Parents who wish to meet with teachers of their children should call the schools in advance for appointments. Teachers will be available to meet with parents from 1:00 - 5:00 p.m.

From 10:00 a.m. to 12:00 noon teachers will be meeting in departmental groups. These instructional groups meet three times each year to coordinate instructional activities, to evaluate specific areas of the curriculum, and to keep abreast of developments in the field of education.

Friday, November 2 will be a busy day for school personnel. It will be an important day in the school year because teachers will have an opportunity to share experiences and learn from each other. It will also be important because of the opportunities parents and teachers will have to work together in the interest of the youths of the county. Parents are urged to take advantage of this opportunity to meet the teachers of their children. Through cooperative efforts of school personnel and parents the goals of the educational systems will be achieved.
